

VIEW FROM THE POOL

Located on the island of St. John, this home designed by architecture and interior design firm Morgante Wilson Architects, in collaboration with local firm Springline Architects, is a beachfront vacation oasis. Complete with an infinity-edge pool, outdoor dining area, expansive pavilion, and private beach—all with breathtaking views of the Caribbean Sea and the island of St. Thomas—the home allows the owners to enjoy complete privacy and truly luxurious outdoor living. “The pool mirrors the shape of the home, which we designed as a curve to maximize views from every room,” says Fred Wilson, co-principal of Morgante Wilson Architects. “We picked up the same curve detail for the pool’s infinity edge, which creates an extremely dramatic visual from the beach.” morgantewilson.com
